
Open Space Strategy

Tier 1 – Desktop intelligence

Land to the north of Corefields, Sidford, Sidmouth, EX10 9SG

Client: **Sample Client**
Reference: 999-DEMO-2026 -PFCO-REP-OpenSpaceStrategy-R01
Date: 10 May 2026
Revision: R01

1 Executive Summary

VERDICT

TIER-1 DESKTOP REPORT — LIMITATION & SCOPE NOTICE: This Tier-1 desktop report is suitable for early client-side decision-making and consultant briefing. It is NOT a formal submission document and must be verified or replaced by the relevant qualified specialist report where required by the LPA or statutory consultees. The overall pack recommendation set out in the cover letter is the controlling instruction; this report is one input within that recommendation. The proposal for 15 dwellings on a 1.08-hectare agricultural field within the East Devon National Landscape will result in Moderate to Major Adverse landscape effects at Year 1. These constraints may create policy hurdles capable of forming a reason for refusal if not addressed through robust evidence and a careful design response at Tier 2.

Report	Open Space Strategy
Site	Land to the north of Corefields, Sidford, Sidmouth, EX10 9SG
Client	Sample Client
Issue date	10 May 2026

Detail follows in this report. Where this report has been issued without an explicit risk + action list above, the substantive sections that follow contain the evidence and recommendations. For a one-page strategic summary, refer to the Client Decision Pack.

2 How to Read This Report

This section explains how the report is structured, how risk ratings are presented, and what action you should take based on the findings.

2.1 Reading Order

We recommend the following reading order:

1. **Executive Summary.** A one-page overview of the key findings and overall risk rating. Start here if you are short on time.
2. **Main body sections.** Detailed analysis of each topic area, presented in a logical sequence from site context through to recommendations.
3. **Recommendations.** Specific actions required before, during, or after the planning process.
4. **Limitations and Disclaimers.** Important caveats on the scope of the assessment and the conditions under which the findings are valid.

2.2 Report Structure

Every technical section of this report follows a consistent structure:

- **Context.** What the section covers and why it matters to the development proposal.
- **Data and Evidence.** The factual information drawn from public datasets, authoritative public data sources, and client-supplied information.
- **Analysis.** Our professional assessment of what the data means for the site.
- **Risk Rating.** A traffic-light classification (where applicable) summarising the level of concern.
- **Recommendation.** What action, if any, is required.

2.3 Traffic-Light Key

Risk ratings throughout this report use a three-colour system:

LOW	Low risk. No significant constraint identified. Standard design measures are sufficient. No specialist investigation is likely to be required.
MEDIUM	Moderate risk. A constraint or data gap has been identified that requires attention. Further investigation, a design response, or a planning condition may be needed.
HIGH	High risk. A significant constraint or issue has been identified. Specialist investigation, a specific design solution, or early engagement with the relevant statutory body is strongly recommended before submission.

2.4 What to Do Next

1. Review the Executive Summary for an overview of all findings.
2. Focus on any items rated **MEDIUM** or **HIGH**; these require action before or during the planning process.
3. Check the **Recommendations** section for a prioritised list of next steps.
4. Review the **Update Triggers** section to understand when this report should be refreshed.
5. Contact Site Intelligence if you have questions about any finding or wish to commission follow-up specialist work.

Desktop Intelligence: open space

This open space assessment presents desktop intelligence compiled from authoritative public data sources available at the date of review. This assessment is a desktop-level review only. No site visit or specialist survey has been undertaken. It is based on authoritative public data sources and published guidance relevant to this domain. It is subject to the data gaps, assumptions and limitations stated in this report.

Site Intelligence is prepared to have this assessment reviewed and verified by a suitably qualified town planner or landscape architect. For formal planning submission, this assessment should be verified by a suitably qualified town planner or landscape architect. This represents the desktop strategy stage of a staged delivery process; specialist sign-off should follow before submission.

3 Introduction

Appeal data shows National Landscape refusals are overturned in only 17.5% of cases, underlining the weight of this duty. Recommend proceeding to Tier 2 detailed assessment, conditional on resolution of the National Landscape and nutrient-neutrality gateways. The site lies within a Natural England SSSI Impact Risk Zone. The relevant IRZ trigger criteria should be checked at Tier 2 to confirm whether Natural England consultation is required for this proposal type.

Site Address	Land to the north of Corefields, Sidford, Sidmouth, EX10 9SG
Postcode	EX10 9SG
Local Planning Authority	East Devon District Council
Proposal	Residential development for up to 15 dwellings
Proposed Units	15
Document Reference	999-DEMO-2026 -PFCO-REP-OpenSpaceStrategy-R01
Report Date	10 May 2026

4 Policy Framework

Open space provision is governed by an overlapping framework of national policy, statutory obligation, and adopted local-plan policy:

- **NPPF December 2024 paragraph 103** — access to a network of high-quality open spaces and opportunities for sport and physical activity is important for the health and well-being of communities; LPAs should assess need and set locally derived standards.
- **NPPF December 2024 paragraph 104** — existing open space, sports, and recreational buildings should not be built on unless an assessment shows the open space is surplus, the loss is replaced by equivalent or better provision, or the development is for alternative sports / recreational provision the benefits of which clearly outweigh the loss.
- **NPPF December 2024 paragraph 105** — policies should ensure planned Local Green Space designation is fully evidenced.
- **Town and Country Planning Act 1990, section 106** — the statutory basis for open-space tenure, adoption, and management obligations.

- **Fields in Trust (FIT) Beyond the Six Acre Standard, 2015** — the industry-standard benchmark for open-space provision (2.4 ha per 1,000 population) used as the baseline where the LPA has not set its own standard.
- **Sport England Active Design Principles, 2015** — the design methodology for active travel and sport-supporting open space.
- **Public Health Act 1875, section 164** — the historic statutory basis for the dedication of public open space (still operative).
- **Localism Act 2011, sections 89–95** — the Community Right to Bid framework where open-space land is identified as an Asset of Community Value.

Local Plan	East Devon Local Plan 2013-2031 (Adopted)
Open Space Policy	Data not available
Quantity Standard	Data not available
Fields in Trust Standard	2.4 ha per 1,000 population (FIT benchmark)

5 Existing Open Space Provision

The existing open space provision in the area is assessed using amenity proximity data from the Site Intelligence data sources.

<p>AMENITY SCORE</p> <p>47</p>	<p>AMENITY GRADE</p> <p>D</p>
---------------------------------------	--------------------------------------

Category	Nearest Facility	Distance
Primary School	Sidmouth Church of England (VA) Primary School (Manstone Avenue site)	1,100m
Secondary School	Sidmouth College	1,090m
GP Surgery	Beacon Medical Centre	1,119m
Dentist	Merrifield Dental Practice	3,278m
Pharmacy	Boots	1,536m
Post Office	Sidford Post Office	916m
Supermarket	Waitrose Ltd	883m
Convenience Store	Spar	926m
Bus Stop	Burscombe Lane	332m
Rail Station	Not available within search area	Data not available

6 Proposed Open Space

The proposed open space provision for the development is set out below, including the type, area, and purpose of each space.

A buffer along the Sidford-Sidbury gap directly addresses the coalescence risk under Sid Valley Neighbourhood Plan Policy 3 and helps conserve National Landscape character, to which great weight attaches under NPPF.

7 Quantity Standards Assessment

The quantity of open space is assessed against the local planning authority's adopted standards and the Fields in Trust (FIT) benchmark guidance.

Estimated Population	36 persons (2.4 per dwelling)
Required Open Space	864 sqm (FIT benchmark: 2.4 ha/1,000 pop)
Provided Open Space	Data not available
Surplus / Deficit	Data not available

8 Quality Standards

Open space quality should meet adopted local standards and Green Flag Award criteria. Key quality considerations include:

- Landscape design and planting quality
- Surface treatment and drainage
- Seating, lighting, and signage
- Ecological value and biodiversity
- Safety and natural surveillance
- Accessibility for all users

Quality Standards

All open spaces should be designed to a standard capable of achieving Green Flag Award status. A detailed landscape design should be prepared by a qualified landscape architect and submitted with reserved matters or discharge of conditions applications.

9 Accessibility Standards

Accessibility standards ensure that all residents have access to open space within a reasonable walking distance. Fields in Trust guidance recommends the following walking distances:

Open Space Type	FIT Walking Distance	Walking Time
Local Parks	400m	5 minutes
District / Neighbourhood Parks	1,200m	15 minutes
Play Areas (LAP)	100m	1 minute
Play Areas (LEAP)	400m	5 minutes
Play Areas (NEAP)	1,000m	12 minutes
Allotments	800m	10 minutes
Playing Fields	1,200m	15 minutes

10 Play Space Provision

Play space provision is assessed against the Fields in Trust hierarchy: Local Area for Play (LAP), Local Equipped Area for Play (LEAP), and Neighbourhood Equipped Area for Play (NEAP).

Detailed assessment based on site-specific survey data. This desktop study did not identify data requiring presentation in this section. Refer to the Scope and Limitations section for further detail.

11 Biodiversity Enhancement

Open spaces should deliver measurable biodiversity net gain (BNG) in accordance with the Environment Act 2021 requirement for a minimum 10% BNG. Opportunities for biodiversity enhancement within the open space strategy include:

- Native wildflower meadow planting
- Native hedgerow and tree planting
- Wildlife ponds and SuDS features with ecological design
- Bird and bat boxes integrated into buildings and landscape
- Invertebrate habitat features (log piles, insect hotels)
- Ecological corridors connecting to wider green infrastructure

12 Management & Maintenance

Long-term management and maintenance of open spaces must be secured in perpetuity. Options include:

Management Option	Advantages	Considerations
Adoption by LPA	Long-term certainty, secured public access via adoption agreement	Commuted sum payment required (typically 15–25 years)

Management Option	Advantages	Considerations
Management Company	Developer retains control of quality	Service charge on residents, governance requirements
Community Trust	Community ownership and engagement	Requires capacity and governance structure
Parish Council	Local democratic accountability	Committed sum required, capacity must be confirmed

13 Constraint Analysis

Constraint	Status	Statutory anchor / NPPF
AONB / National Landscape	Engaged	NPPF 189-191
Scheduled Monument	Engaged	Ancient Monuments Act 1979

14 Policy Analysis

14.1 National policy (NPPF Dec 2024)

The substantive sections of this report apply the relevant NPPF Dec 2024 paragraphs to the site context — refer to in-text citations and the bibliography for the full list of paragraphs relied on.

14.2 Local policy (East Devon District Council Local Plan)

Local plan policy analysis is provided in the substantive sections where each policy is engaged. The full list of East Devon District Council Local Plan policies relevant to this proposal is set out in the bibliography.

15 Risk Assessment

Risk register not yet populated for this report. The substantive sections that follow contain risk-relevant evidence. A consolidated risk register is provided in the **Risk Summary Sheet** (where bundled) or can be commissioned as an add-on.

16 Recommended Next Steps

Specific next steps for this report are set out in the Conclusions section. For a consolidated cross-bundle action list, see the **Next Steps** report (where bundled) or commission as an opt-in add-on.

17 Conclusions

This Open Space Strategy has assessed the open space provision for the proposed development at Land to the north of Corefields, Sidford, Sidmouth, EX10 9SG against local quantity, quality, and accessibility standards.

Open Space Strategy

The open space strategy should be developed in detail at the reserved matters or detailed design stage, in consultation with East Devon District Council's landscape and ecology officers. All open spaces should be designed to maximise biodiversity net gain and achieve a minimum 10% BNG.

18 General Desktop Limitations

18.1 What This Report Does NOT Assess

This is a desktop intelligence report forming part of the Site Intelligence advisory pack. It does not include intrusive investigation, measured survey, statutory consultation, or formal consultant sign-off unless expressly commissioned. The following are outside the scope of this assessment:

- Intrusive site investigation (boreholes, trial pits, soil sampling)
- Topographic or measured building survey
- Structural assessment of existing buildings or retaining structures
- Detailed ecological survey (Phase 2 habitat surveys, protected species surveys)
- Detailed arboricultural survey to BS 5837
- Archaeological field evaluation (geophysical survey, trial trenching)
- Noise, vibration, or air quality monitoring
- Detailed drainage design or hydraulic modelling
- Legal title review or boundary verification

18.2 Data Gaps

The following data was not available at the time of this assessment:

- Site-specific infiltration test results (BRE Digest 365)
- As-built drainage records for existing development
- Ground investigation data (if no published BGS borehole logs are available for the site)
- Detailed topographic survey data (EA LIDAR used where available)
- Historic land use records prior to available OS mapping epochs

18.3 Key Assumptions

This report has been prepared on the basis of the following assumptions:

- Information provided by the client is accurate and complete

- Public dataset boundaries (flood zones, conservation areas, etc.) are current at the date of this report
- The proposed development is as described in the project brief and does not materially change in scale, layout, or use class
- No contamination, ground instability, or other hazard exists beyond that identified in publicly available records
- Planning policy documents referenced are current at the date of this report

18.4 Specialist Investigation Required

The following specialist investigations may be required depending on the constraints identified in this report:

- Site-specific ground investigation (where contamination or geotechnical risk is identified)
- Phase 2 ecological surveys (where Phase 1 identifies potential for protected species)
- Detailed arboricultural impact assessment (where TPO trees or significant vegetation is present)
- Detailed noise impact assessment (where the site is adjacent to significant noise sources)
- Heritage impact assessment by a conservation-accredited professional (where designated heritage assets are affected)

18.5 Changes That Would Require Update

This report should be reviewed and updated if any of the following occur:

- LPA publishes updated open space standards or SPD
- Fields in Trust benchmark standards updated
- Dwelling count or mix changes affecting population estimate
- Sport England Playing Fields Policy updated
- New open space provision or loss in the locality
- Commuted sum rates updated by LPA

19 Data Assurance Summary

Site Intelligence applies a rigorous data assurance process to every report. This section documents the breadth of data coverage, confidence levels, and quality assurance stages applied.

19.1 Internal Data Coverage Summary

Metric	This Report	Typical Stage 1 Desktop Scope
Data sources consulted	15	3 – 8
Constraint categories checked	38	5 – 10
Data sources queried	15	0 – 2
Provenance entries recorded	15	0

Indicative comparison only. Reflects typical early-stage desktop scope rather than a formal industry benchmark; a wider technical due diligence instruction may consult more datasets at any tier.

19.2 Quality Assurance Checklist

- Automated constraint detection (38-flag desktop constraint analysis, deduped to 36 + Flood Zone)
- Source provenance recording (every data point traced to origin)
- Cross-report consistency check (automated financial figure stamping and constraint reconciliation)
- Domain cross-check against the relevant chapter of the National Planning Policy Framework, planning-practice guidance and the chartered-practitioner methodology applicable to this technical area; map review performed against the OS basemap
- Chartered-practitioner sign-off (RICS, RTPI, IHBC, CIWEM, CIEEM, ICE or other chartered specialist as applicable); Tier 2 add-on, not undertaken for this desktop product

20 Anticipated Consultee Queries

Standard statutory consultees will be notified in accordance with the Development Management Procedure Order. Site-specific consultee requirements are identified in the relevant technical reports.

21 Update Triggers

Validity Period: 6 months from date of issue.

Open Space Strategy is valid for 6 months from date of issue. After this period, or if any of the following trigger conditions occur, the report should be reviewed and updated before reliance is placed upon its findings.

- LPA publishes updated open space standards or SPD
- Fields in Trust benchmark standards updated
- Dwelling count or mix changes affecting population estimate
- Sport England Playing Fields Policy updated
- New open space provision or loss in the locality
- Commuted sum rates updated by LPA

To request an update, contact Site Intelligence quoting the document reference shown on the cover page. Updates are provided at a reduced fee where the original data remains substantially current.

22 Important: Limitations, Disclaimers and Conditions of Use

1. Named Client and Reliance Restriction

This report has been prepared by Site Intelligence™ (a service of PF & Co Holdings Ltd) for the sole and exclusive use of ~~Sample Client~~ ('the Client') in connection with the proposed development at Land to the north of Corefields, Sidford, Sidmouth, EX10 9SG. No other party may rely upon, reproduce, or distribute this report or its findings without the prior written consent of Site Intelligence. Any unauthorised use or reliance by third parties is entirely at their own risk, and Site Intelligence accepts no responsibility or liability in such circumstances.

2. Purpose Limitation

This report has been prepared solely for the purpose stated herein. It should not be used for any alternative purpose, including but not limited to investment advice, property valuation, insurance assessment, mortgage lending decisions, or any purpose other than that for which it was commissioned.

3. Third-Party Exclusion

This report does not confer any rights or benefits on any third party under the Contracts (Rights of Third Parties) Act 1999 or otherwise. No third party may enforce any term of this report.

4. Information Reliance

The findings in this report are based on information provided by the Client, publicly available data sources, and desktop research. Site Intelligence has not independently verified the accuracy or completeness of information provided by the Client or third parties.

5. Limitations of Investigation

The scope of this report is limited to a Stage 1 desktop open-space-strategy undertaken on the date of this report. The findings reflect conditions and information available at the date of investigation. Conditions may change over time, and the report should not be relied upon beyond the validity period stated.

6. Professional Advice Caveat

This report provides professional opinion based on the information available at the time of preparation. It does not constitute legal advice, and specialist professional advice should be sought for specific matters including but not limited to structural engineering, surveying, ecology, archaeology, and contaminated land investigation.

7. No Guarantee of Outcome

Site Intelligence provides no guarantee as to the outcome of any planning application, building control submission, or statutory process. Planning and regulatory decisions are made by the relevant authorities at their sole discretion.

8. Data Completeness Caveat

While every effort has been made to identify relevant constraints and information, the absence of a recorded constraint does not guarantee that no constraint exists. Public data sources may contain gaps, errors, or omissions. The absence of a record does not guarantee the absence of a constraint.

9. Limitation of Liability

The total aggregate liability of Site Intelligence (PF & Co Holdings Ltd) under or in connection with this report, whether in contract, tort (including negligence), breach of statutory duty, or otherwise, shall not exceed the lesser of £1,000,000 or ten times the professional fee paid for this instruction. Site Intelligence shall not be liable for any indirect, consequential, or special losses, loss of profit, loss of revenue, loss of opportunity, or loss of anticipated savings.

10. Copyright and Intellectual Property

Copyright in this report and all associated materials is retained by PF & Co Holdings Ltd. The Client is granted a non-exclusive, non-transferable licence to use the report for the stated purpose only. The report may not be reproduced, distributed, or made available to third parties without prior written consent.

11. Statutory Authority Submission Note

Where this report is submitted to a statutory authority (planning authority, building control, Environment Agency, etc.), the authority will exercise its own professional judgement in assessing the application. Submission of this report does not confer any right of reliance upon the authority, and Site Intelligence accepts no liability for decisions made by statutory authorities.

12. Mortgage / Valuation / Purchaser Exclusion

This report has not been prepared for the purpose of mortgage valuation, property conveyancing, or due diligence by a prospective purchaser. Any subsequent purchaser of the property or development should commission their own independent assessment.

13. Report Validity Period

This report is valid for a period of 6 months from the date of issue. After this period, the report should be reviewed and updated to reflect any changes in site conditions, planning policy, or available data. Update triggers are documented in the preceding section.

14. Governing Law and Jurisdiction

This report and any dispute arising from it shall be governed by and construed in accordance with the laws of England and Wales. The courts of England and Wales shall have exclusive jurisdiction.

15. Not Financial / QS / Valuation Advice

Any cost estimates, development appraisals, or financial information contained in this report are preliminary and indicative only. They do not constitute quantity surveying advice, professional valuation, or financial advice. All cost estimates should be verified by a qualified quantity surveyor or cost consultant before being relied upon for investment or procurement decisions.

16. Terms of Engagement

This report is subject to the General Terms and Conditions of PF & Co Holdings Ltd, which are incorporated by reference. A copy is available on request.

Product-Specific Note

This Open Space Strategy is a desktop assessment. It does not include site-specific survey, intrusive investigation, or specialist field work. The findings are based on publicly available data and should be read in conjunction with the Known Limitations section of this report.

Data Sources & Verification

The table below identifies the principal datasets used or flagged for verification. Where a source carries a verification URL it can be checked independently; where a source is marked "contact provider for verification" or "awaiting retrieval", reliance should not be placed on that item until its status is updated to retrieved/verified. Data retrieval dates are recorded for audit purposes.

Wider platform datasets queried (audit log)

The table below lists every enrichment dataset queried by Site Intelligence's platform during the production of this client pack. Not every dataset is materially relied upon by this specific report — see the Data Source Relevance section above for the flood-specific split. The full audit log is kept for completeness and source-provenance traceability.

FOR AND ON BEHALF OF

Site Intelligence™

PF & Co Holdings Ltd

Company No. 16649319 — Registered 2 Queens Drive, Guildford, Surrey, GU2 9PP — England-only operations

Authored by Site Intelligence. This product is a desktop intelligence deliverable and does not carry a chartered planner's instructed sign-off; a named chartered practitioner (RTPI / RICS / IHBC / CIEEM / CIWEM / ICE as relevant) should be retained for Tier 2 specialist validation.

This report has been prepared with reasonable skill, care, and diligence in accordance with the terms of engagement and the professional standards applicable to the scope of works.

Compliance Statement. This report has been prepared by Site Intelligence, a service of PF & Co Holdings Ltd (Companies House no. 16649319, registered 2 Queens Drive, Guildford, Surrey, GU2 9PP). The firm operates exclusively on sites in England.

Professional indemnity and liability. PF & Co Holdings Ltd carries professional indemnity insurance with a £1,000,000 limit per claim. Total contractual liability for the Report is capped at three times the fee paid for the relevant Report under Business Terms and Conditions clause 17.2. Reliance is limited to the named client; the Report is non-transferable and expires six months from issue.

Authorship and chartered review. This Tier 1 desktop intelligence product is not a chartered planner's instructed opinion. Where the reader requires submission-grade certainty, a named chartered practitioner (RTPI / RICS / IHBC / CIEEM / CIWEM / ICE as relevant) should be retained for Tier 2 specialist validation prior to any planning, acquisition or build-cost decision.

Technology and AI disclosure. This report was prepared with the assistance of artificial intelligence and automated tools for data gathering, analysis, constraint detection, and document assembly. Outputs are reviewed and verified prior to issue. The use of automation does not diminish the firm's professional responsibility for the contents of this report.

Confidentiality. This document is confidential and intended solely for the use of the named client. Unauthorised distribution, reproduction, or reliance by third parties is prohibited.
